Updated Grain Handling Safety Seminar

Friday, April 25, 2014 - 8:00 am - 4:30 pm

Red Lion Hotel - Lewiston, ID

Pricing : $150 member / $225 non-member

PNWGFA and NGFA have teamed up once again to provide members with a Grain Handling Safety Seminar to supply the tools needed by successful operations to comply with federal and state regulations. This seminar will also include an update on the status of several OSHA regulatory issues, an overview of key Grain Handling Standard components, NGFA guidance documents, and the revised OSHA Hazard Communication Standard.

Speakers:

Jess McCluer, Director of Safety and Regulatory Affairs with the National Grain and Feed Association, is responsible for directing and managing the NGFA's wide-ranging operations programs for grain elevators, feed mills and grain processing plants. He also oversees the NGFA's activities regarding employee safety and industrial health, environmental issues, grain-handling facility design and equipment, grain inspection and weighing issues, grain and feed quality and biotechnology related issues.

Bill Kness, PE, CSP, is a principal at Blue Dot, Inc. an Environmental, Health & Safety (EHS) consulting company. Bill is a Professional Engineer in Oregon and Wisconsin. He is also a board Certified Safety Professional. Bill has more than 22 years of experience providing environmental and safety engineering services for clients across the country and working as an EHS professional directly for companies. The majority of Blue Dot's clients are agricultural businesses in the feed, grain handling, and ag-chemical sectors. In addition to consulting work, Bill has worked as the EHS Engineer at Leupold and Stevens in Beaverton and in the corporate EHS group at Land O'Lakes, Inc.

Technical Subject Material on the following:

Emerging & Evolving Regulatory Issues - OSHA
- Overview of Federal, State & Local enforcement programs
- Status of Sweep auger issue
- Engulfment/entrapment enforcement
- Combustible dust regulatory trends
