Binzful II

Portable, Wireless Bin Level Indicator
With Tilt Switch!

Watches your bins so you don't have to!

- Easy to use and set-up
- Completely portable
- Works with your existing radios
- No expensive wiring to install
- Verbal warnings sent to your radio
- Test message sent upon activation and repeated every 60 minutes
- Completely customizable (wording and frequency)
- Rechargeable with 110v outlet
- Prevents overfilling bins
- Allows employees to multi-task instead of "babysitting" the bin

- Hybrid rechargeable batteries last 6—8 months from single charge using a standard 110v outlet
- Internal charging port
- Internal antenna
- On/off switch and tilt switch are only parts located outside of the durable carrying case
- Low voltage transmitter
- Electronics contained in NEMA 4X dust and watertight enclosure which resides inside a water tight, dust resistant and crush proof Pelican case
- Two-bin monitoring with dual switch model
- Optional NEMA 9 (Class II-G) enclosure

Three Models available
Single Switch
Dual Switch
Class II-G Single Switch
